Area DKI Jakarta

## Ringkasan

Hello World! I'm here to connect with people on LinkedIn, so we can learn from each other and share experiences. But, I apologize this is only open to my connections, if you want to join click connect button and become a connection.

## Pengalaman

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka  
Cloud Computing Cohort  
Februari 2023 - Present (4 bulan)  
Bandung, West Java, Indonesia

Bangkit is one of Kampus Merdeka's learning models designed through a technology training collaboration organized by Google, GoTo, and Traveloka which aims to improve technology skills and prepare participants to become future leaders in the technology industry. There are 3 learning paths (Machine Learning, Cloud Computing, and Android), one of them is Cloud Computing which learns about basic concepts, how to build, and manage technology on the Google Cloud. With a great curriculum designed by the Bangkit team, we studied intensively every day and were challenged to create a Capstone Project with a team that included all of the 3 learning paths to make an application. In the end, we got a great reward and a chance to do certification.
